Music by Augusta Browne.

CON MOLTO ANIMATO.

We all love the music of sky, earth and sea, The thrill of the songbird, the

hum of the bee, The wind harp that swings from the bough of the tree, The

reed of the rude shepherd boy; We love Na- ture's warblings, when

mf

day has begun, When rock-fountains gush in to song as they run, When the

p

stars of the morn' sing their hymns to the sun, And hills clap their hands,.....in their

joy.
